第一步, 先查看下自己的Eclipse是什么版本, 步骤如下:

上面图片中红色区域图片,有一个放上去提示eclipse.org那个点进去 查看 eclipse版本

Provider	Feature Name	Version	Feature Id	
Eclipse.org	Eclipse Java Development	3.13.2.v20171	org.eclipse.jdt	
Eclipse.org	Eclipse Platform	4.7.2.v201711	org.eclipse.platform	
Eclipse.org	Eclipse RCP	4.7.2.v201711	org.eclipse.rcp	
Eclipse.org	Eclipse User Storage	1.1.0.v201705	org.eclipse.userstorage	
Eclipse.org	Help System Base	2.2.102.v2017	org.eclipse.help	
Eclipse.org	PDE	3.13.2.v20171	org.eclipse.pde	

这里是 4.7版本

第二步,安装插件

点击Eclipse菜单'Help ->Install New Software....', 点击Add

name: spring tool site

location: http://dist.springsource.com/release/TOOLS/update/e4.7 这里是

4.7版本的eclipse所以输入 4.7

140	iiic					
\triangleright		Core /	Eclipse Integration	Commons		
\triangleright		Core /	Eclipse Integration	for Gradle		
\triangleright		Core /	Eclipse Integration	Pivotal to Sen	/er	
\triangleright		Core /	Spring IDE			
\triangleright		Extensi	ons / Spring IDE			
\triangleright		Integra	tions / Spring IDE			
\triangleright		Resour	ces / Spring IDE			
\triangleright		Spring	Tooling Language	Servers for Ec	lipse	

选择带Spring IDE的即可,一步步的安装完成,重启。

第三步,验证

找到spring xml文件。右键--open with --》spring config editor 然后查看结果即可
